### **EMPLOYMENT HISTORY**

#### **StopBadware, Inc. (Cambridge, MA)**

**Jan. 2010–present**

##### **President & Executive Director**

- Develop and implement strategy as the chief executive of a high profile non-profit organization
- Build partnerships with, and secure funding from, industry-leading corporations such as Google, PayPal, and Mozilla
- Manage the organization's daily activities, including hiring, software development, marketing, PR, and financial operations
- Serve as a content expert and thought leader advocating for consumer online security

#### **Berkman Center for Internet & Society at Harvard University (Cambridge, MA)**

**Sep. 2007–Dec. 2009**

##### **Manager, StopBadware project**

- Managed staff and oversaw operations of a high visibility technology education and research project
- Coordinated strategic planning, budgeting, software development, marketing, and PR activities for the project
- Developed and implemented a plan to spin the project out as a standalone non-profit organization
- Represented Berkman and the project as a speaker, panelist, and moderator at conferences

**Year Up, Inc. (Cambridge, MA)**  
**Jan. 2003–Sep. 2007**

**National Technology Director**

- “Chief geek” for a \$12 million organization with 65 staff and 400 students in four cities
- Oversaw capital expense and technology operations budgets and approved all technology purchases
- Planned, built, and maintained the organization’s network and systems
- Managed a full-time IT specialist and coordinated additional service delivery by vendors, consultants, and remote staff

**Site Leader**

- Managed Year Up’s Cambridge office, with a focus on providing high expectations, high service, and high support to our students
- Led weekly staff meetings, coordinated class schedules and coverage, contributed to performance reviews, and made final decisions on student-related issues

**IT Curriculum Coordinator and Learning Director**

- Translated a \$10 million partnership with Microsoft into education and certification opportunities for staff, students, and alumni
- Coordinated the development of an IT support curriculum that was taught throughout the organization
- Taught computer applications and IT support to students preparing for IT apprenticeships and careers at top employers, including State Street, Staples, Partners HealthCare, and Abt Associates

**Arrowstreet Capital, L.P. (Cambridge, MA)**  
**Nov. 2001–Dec. 2002**

**Network Administrator**

- Sole IT infrastructure/support specialist for a growing asset management company
- Implemented and supported a variety of desktop, server, and network systems
- Developed disaster recovery plans and system upgrade plans to mitigate risk of downtime

**Empirix, Inc. (Waltham, MA)**  
**Feb. 2000–Nov. 2001**

**Systems Engineer**

- All-around IT specialist for a fast-growing software company
- Implemented and supported a variety of desktop, server, and network systems
- Provided desktop and remote support to domestic and international users
- Mentored and trained IT support specialists

**Productivity Point International (Iselin, NJ)**  
**Feb. 1998–May 1999**

**Technical Training Specialist**

- Taught computer applications classes to end users and Microsoft certification classes to IT specialists at Fortune 500 clients, consistently receiving top ratings for instructional quality
- Spent eight months at Bristol-Myers Squibb serving as a lead trainer for a 20,000-user rollout of Windows NT and Netscape Communicator and becoming the company’s resident expert on the latter
